## MISS JESSIE ERSKINE CARRIES OFF GOVERNOR GENERAL'S MEDAL

On September 28th, the announcement was made by Hon. Perrin Baker, Minister of Education, that Miss Jessie Erskine had been successful in winning the Governor-General's medal, awarded for obtaining the highest number of marks in the recent grade VIII examinations, in the Oyen Inspectorate.

Throughout the year Jessie's work has been characterized by thoroughness, neatness, and scrupulous attention to detail.

Those interested in school work are justly proud of the honor won for the school; and extend heartfelt congratulations to Miss Jessie.

The following letters of congratulation from the Minister of Education have been received by Jessie herself and by Miss Caldwell, who in conjunction with Principal Irvine conducted the work of grade VIII.

Edmonton, Alberta  
September 29, 1927

My Dear Jessie:  
I have the pleasure of presenting to you the Bronze Medal donated by His Excellency, Viscount Willington, Governor-General of Canada, and awarded to the candidate receiving the highest marks in the Oyen Inspectorate at the Grade Eight Departmental Examinations in June, 1927.

With hearty congratulation on your success and hoping that you will be able throughout your high school course to maintain the high record you have established, I am,  
Yours truly,  
PERRIN BAKER,  
Minister of Education

Edmonton, Alberta  
October 6, 1927

Miss Glenell Colwell,  
Oyen, Alberta.  
Dear Miss Colwell:  
Jessie Erskine, who was your pupil last term, has been awarded the Governor-General's Medal for the highest standing in the departmental examinations for Grade VIII in the Oyen Inspectorate. Since the success of the pupil depends very largely on the work of the teacher, I heartily congratulate you on your achievement.

Yours truly,  
PERRIN BAKER,  
Minister of Education

### M.D. OF CEREAL, 242

The council of the Municipal District of Cereal, No. 242, met in the municipal office at Oyen, Alberta, on Saturday, October 8, at 7 o'clock p.m. There were four councillors present.

The minutes of the council meeting of September 10 were read and approved.

The financial statements were read and approved.

The correspondence was read and disposed of.

## MEXICO STILL IN THROES OF SERIOUS REVOLT

Mexico City.—The "atacanto roll" of the firing squad continues to echo through Mexico, but despite summary retribution exacted by the Government, reports from many points indicate a continuance of revolutionary movements.

General Alfredo Quijano, commander of cavalry in the Mexico City garrison, as taken virtually from the court-martial chamber in which he was convicted to face a firing squad. General Alfredo Quijano was also executed. The general, who was convicted of leading his troops in rebellion against the Government, after an eight-hour trial, was shot by a firing squad in the courtyard of the San Jacinto military prison.

In Mexico, 25 members of the State Legislature were shot as sympathizers of the Gomez-Serrano revolt.

Despatches to the American border announce that the Mexican treasury had called upon fiscal agents throughout the Republic to transfer available resources to the capital to meet the increased expenses of military operations.

Mexican naval vessels at Vera Cruz were threatened around Vera Cruz by the use of the Federal military in operations towards Orizaba, indicating a new focal point of unrest there, and disruption of traffic through the Mexican railway has been heightened by the incursion of a rebel group at Pasa Naccho.

## Newly Minted Coins Will Purchase Grain

Are Now On Way From London To South America

London.—The Blue Star liner Alameda, now on her way to South America, is carrying for a large English and South American grain company 50,000 newly minted, seven-eighths, which are to be temporarily lodged in Buenos Ayres against the purchase of Argentine wheat. The coins, which weigh 5,500 pounds, represents approximately two-thirds the value of the new luxury liner in which it is carried.

The Alameda left London recently, carrying the coins, the exact number of which few people were aware of the unusual nature of the cargo. It was collected from the bank of England in two motor vans and conveyed to North Woolwich. Two detective inspectors accompanied each van as King George V. dock, and the relinquished custody as such, and the coins were placed in a special car which was then sealed with the captain's seal. Thereafter will be inspected every watch throughout the voyage.

The boxes were placed in a special car which was then sealed with the captain's seal. Thereafter will be inspected every watch throughout the voyage.

## Drunbeller Miner Killed

Was Buried Under Heavy Fall Of Rock From Mine Roof

Drunbeller, Alta.—George Young, a well-known miner at the A.B.C. mine, here, was killed by a fall of rock while on duty.

Claude Tonny, working in the entry room next to the unfortunate man, heard the fall of rock and came to Young, asking him if he was all right. Hearing no answer he called again with the same result and then left his entry to investigate. He found about two tons and a half of rock had fallen from the roof, burying Young beneath it.

Calling for help to remove the rock, Kenny got A. J. Briggs, Jack MacNeill, Frank, Henry, and Stanley Smith to help him. These men pried up the rock and brought Young out of the mine. When the rock was raised off Young's body he was still breathing but had died before reaching the surface.

Will Erect Hospital

Montreal.—Mayor K. W. Freeland Kendrick, of Philadelphia, founder, with his wife, of "shriners" headquarters throughout the United States and Canada, said in an interview here that another "shriners" hospital would be erected somewhere on the Canadian Pacific coast in the near future. Victoria or Vancouver are the possible sites.

Outside the British Isles there are fewer than eighteen million white people in the thirteen million square miles of the British Empire.

W. N. U. 1702

## Plan Might Be Feasible

Idea Suggested By U.S. Professor To Aid Farmers

Urbana, Ill.—Two means of giving the farmer a fairer share in competition with the world price of farm products have been outlined by Professor C. L. Steward, chief of agricultural economics at the University of Illinois.

Prof. Steward has suggested a 250,000,000 bounty to be paid the exporters of agricultural products from present tariff income. He would place the wheat crop of the United States under the control of a board, which would export one fifth of the crop and tax the remainder of the rate of 10 cents a bushel to meet the deficiency in the price received for the exported wheat.

In the first place, he said, the tariff rate was now so high that import of foreign goods has been greatly reduced. If the rate were cut the increased importation would so increase tariff revenue that the bounty would be paid without loss of government funds.

## National Council Of Women

Annual Convention Is Held At Stratford, Ontario

Stratford, Ont.—The annual convention of the National Council of Women was outlined by Mrs. J. A. Wilson, president of the Ontario branch, at the opening session of the annual convention here. These included the prevention of the causes of war; the stamping out of all unjust laws; the upholding of an equal moral standard for all; and an equal opportunity for women in all the fields, including their physical, moral and mental powers.

Mrs. Wilson was honored with a life membership in the organization. Similar awards being given to Miss Caroline Carmichael and Mrs. H. H. Howitt, of Ottawa, and Mrs. M. J. Robertson, of Saskatoon.

## Fliers Complete Journey

Covered Twenty-Two Thousand Miles In Six Weeks

Detroit, Mich.—Completing a 22,000 mile journey in six weeks, Edward P. Schell and William S. Brock arrived at Ford Airport in the around the world monoplane, Detroit, Mich., stepped from the plane first and was greeted enthusiastically by his wife.

Although two women claimed him while he was gone, there was no word of the exact time he was away. The women were welcomed by Henry and Edna Ford, Eddie Hicken, and Edward S. Evans, joint holder of the twelve grilling record of 23 days and 14 hours, which Schell and Brock tried to lower.

May Develop Power Scheme

Prince Albert, Sask.—H. M. Sibbald, president of the Board of Trade has informed the members that an eastern firm is looking into the Lacelle Falls power scheme with a view of developing it to provide electric light and power for Prince Albert and Saskatoon. Mr. Sibbald says the project is being developed by the Canadian Pacific and the completion of the line between St. Paul and Winnipeg and St. Walburg. The matter will be brought to the attention of the Government at its next session.

Test Legality Of Betting

London.—A batch of summonses to test the legality of betting on greyhound racing will be heard October 25. The principal instigators in the prosecution are the National Anti-Gambling League and the chief defendants are the Greyhound Racing Association, lessees of the Stadium at the White City.

Japan May Send Troops

Tokyo.—The Japanese government is seriously considering the sending of troops from Manchuria to Peking and Tientsin if the situation in the Chinese civil war becomes worse, a spokesman for the Japanese government declared. In the meantime the government is closely watching developments.

Hertzog Attacks Smuts

Bloemfontein, South Africa.—President Hertzog of the South African Union, speaking at a meeting in the town hall here, on the flag issue, bitterly attacked General Smuts, leader of the opposition, whom he accused of perverting the truth and fostering racial strife and discord for his own political ends.

Received Legion Delegates

The British held a reception at Buckingham Palace for the American Legion delegation on the official five-day visit to London of the United States war veterans. His Majesty received the legionnaires, headed by General Pershing and O. P. Savage, retiring national commander.

## Congratulated By Prince

Canadian War Graves Commission Receives Letter Of Appreciation

Ottawa.—The interest manifested by the Prince of Wales in veterans of the Great War, during his visit to Canada, has been indicated in news despatches. That he also has noted and appreciated the work being done in Canada to commemorate the memory of those veterans who died in the service of the Dominion is indicated in a letter received by Col. H. C. Osborne, secretary-general for Canada of the Canadian War Graves Commission. This letter, written in the direction of the prince, congratulates the Canadian agency of the War Graves Commission on the work, and expresses gratification that the memory of the soldiers who are buried in Canada is being preserved in the various burial grounds.

## Marriage Rate Is High

More Marriages In Alberta In 1926 Than For Previous Five Year Average

Edmonton.—The year 1926 proved to be the highest year in Alberta history for the five preceding years, according to figures issued by the Alberta Statistics department. There were 4,098 marriages registered during the year, which is 25 more than in the preceding year, and 34 more than the average of the five preceding years.

Edmonton had 1,993 marriages; Calgary, 1,084; Lethbridge, 191; and Medicine Hat, 115. There were 162 brides 16 years of age and under, 1,580 brides between 17 and 19, and 1,542 between 20 and 24. There were 17 brides and 45 grooms over 60 years of age, 11 of the grooms and two of the brides being over 70 years.

## PREPARE PLANS FOR CONFERENCE OF PREMIERS

Ottawa.—Plans for the inter-provincial conference, otherwise known as the conference of Provincial Premiers, which will meet at Ottawa, November 3, are rapidly taking shape.

Arrangements are in the hands of Hon. Ferdinand Bisset, secretary of state, and while no details of the wide and far-reaching interest and effect. At the suggestion of the secretary of state, provincial governments have submitted questions on practically the full range of provincial jurisdiction under the British North America Act, and federal departments have responded with questions of Dominion concern which also have a bearing on provincial affairs.

The conference should produce a unification of practices on many problems of inter-provincial concern, such as conscription, insurance practices, etc., and should result in important decisions operating to the benefit of each of the provinces as well as to the Dominion.

More effective co-ordination between provinces and between the Dominion and provinces is one assured result. The conference will be fully open to the discussion of any and all problems of interest and concern and should, it is felt here, result in material benefit to the Dominion at large.

A CHAMPION IN THE MAKING

Blackpool, England.—The exhilarating spectacle of a peer denouncing his own legislative chamber in gross set terms, was presented at the Labor Party conference here, by Lord Arnold, who, as Sidney Arnold, was Liberal member of the House of Commons for some time. He went over to the Labor Party in 1922, and was Under-Secretary of State for the Colonies, in the late Labor Government, in 1924, and was created a peer the same year.

"The House of Lords will never give the Labor Party a fair chance, because it is blind to the signs of the times," Lord Arnold declared. "It is calumnious, insensitive, self-righteous, obstructive, unscrupulous and utterly reactionary."

"It has been said by an august Liberal that to go and look to the Lords for smooth, I myself, after three and one half years' experience in the Lords, would say that to be in it is more than enough."

These sentiments were expressed by the Labor peer while he was expressing a resolution condemning the Baldwin Government for its proposals for the reform of the House of Lords, and urging the complete abolition of the House of Lords.

The resolution was carried.

Miss "Mildred" McKenna, daughter of Sir McKenna, professor of law at the London Law School, of the Canadian National Railway, on the Whelan River, Ontario, is a champion like her father. She believes in the axiom "Practice makes perfect," so she has begun early to take lessons in the law and is already something of a stylist.

## Toc H Movement

"Men, not money, is what we want," says Padre Harry H. Hilton, one of the chief missionaries of the Toc H movement, touring Canada in the interest of the organization. The name of the movement, already firmly established in Great Britain, in Australia, in South Africa and other parts of the world, is an abbreviation of "Tolstoy House," a famous institution in Tottenham, near Yps, during the war. He is one of the best known personalities in Great Britain, and is affectionately known by many throughout the British Empire as "Uncle Harry."

## Declares Soviet Rule Will Be Short Lived

Does Not Represent Russian People Says Oil Magnate

New York.—Sir John W. A. Bowering, of London, director-general of the Royal Dutch Petroleum Company who has been recently engaged in a bitter controversy with the Standard Oil Company of New York over control of Russian fields, predicted through his New York representative that the Soviet government would be short-lived.

Bowering asserted that the Soviet government, which has taken over national industries and resources, did not represent the Russian people. Recalling that in June, 1918, the Soviet authorities confiscated the oil rights, railways, machinery, stocks and bonds, Sir John said:

"Politically this is confiscation; practically all of these objects were stolen, not by representatives of the people, but by a gang who, by controlling the army had usurped the power to do anything which otherwise has not been tolerated otherwise," he declared.

Australian Taff Trouble

Canberra, Australia.—The imposition of increased tariffs on certain classes of imports is condemned by the tariff board which has just reported to the Commonwealth Parliament on its inquiry into tariff matters. Recalling that in June, 1918, the Soviet authorities confiscated the oil rights, railways, machinery, stocks and bonds, Sir John said:

Builds Motorless Plane

Cocoa, Fla.—A motorless flying craft has been built here by George R. White, of Stony Brook, L. I. The machine looks like a giant kite and he wings beat the air like a bird's. It is called an oriolebird and has made short flights successfully.

## How Money Is Expended

Federal Minister Of Finance Shows Division Of Per Capita Levy

Ottawa.—From each person in Canada \$3.60 is collected annually by the Dominion Government, Hon. J. A. Robt, Federal Minister of Finance, stated in an address to the Women's Liberal Club at a meeting in the Canadian Legion Hall.

Of this sum, \$12 goes to pay the interest on the national debt; \$2.50 to make possible a reduction of this debt; \$2.50 to provide pensions for disabled soldiers, widows and orphans; \$2.50 to the Provincial Governments; \$1 for collection; three cents to the actual administration of the country; \$1.42 for such things as the maintenance of railways and canals, inspection of food-stuffs, expenses of trade agents, colonization efforts, and administration of law and order.

## Research Conference

Imperial Agricultural Research Conference Held In London

London.—The Imperial Agricultural Research Conference, the first of its kind ever held in Great Britain, was assembled here. About 20 delegates from throughout the empire will study the results of a five years of scientific and technical research, development and export of food, development of soils and fertilizers with the aim of making the empire completely self-sufficient.

The establishment of research stations throughout the empire and organization of a fighting force of scientists, who could be called upon by any Dominion or colony to attack agricultural problems, will be considered.

Minister of Agriculture, Walter W. Guinness, welcomed the delegates to the conference and Lord Bledisloe was appointed chairman.

## More Settlers Wanted For Lethbridge District

Fifty Families Needed To Complete Colony In Irrigation Area

Lethbridge.—According to the Dominion Government, fifty families are wanted to complete the colonizing of the Lethbridge Northern Irrigation Colony. The colony, which has been established within the past two years, in 1922 the district's agricultural production was valued at \$165,000; in 1923, \$1,215,000; and in 1924, \$1,525,000. The colony is now being developed from Lethbridge northern farm land \$2,500,000.

## Students Found Joke Costly

Seniors At Ontario Agricultural College Taught A Lesson

Guelph, Ont.—Sophomores of the Ontario Agricultural College found a prank on the freshmen very expensive.

While the first year students were at a dance, the seniors soaked the freshmen with water from the college's water supply. The prank cost \$100 worth of good clothing. The college authorities have cancelled the sophomores to pay for the damage and in addition have forced them to pay board bills for two weeks, expelling them from residence for that period.

## BRITISH PEER DENOUNCES THE HOUSE OF LORDS

Blackpool, England.—The exhilarating spectacle of a peer denouncing his own legislative chamber in gross set terms, was presented at the Labor Party conference here, by Lord Arnold, who, as Sidney Arnold, was Liberal member of the House of Commons for some time. He went over to the Labor Party in 1922, and was Under-Secretary of State for the Colonies, in the late Labor Government, in 1924, and was created a peer the same year.

"The House of Lords will never give the Labor Party a fair chance, because it is blind to the signs of the times," Lord Arnold declared. "It is calumnious, insensitive, self-righteous, obstructive, unscrupulous and utterly reactionary."

"It has been said by an august Liberal that to go and look to the Lords for smooth, I myself, after three and one half years' experience in the Lords, would say that to be in it is more than enough."

These sentiments were expressed by the Labor peer while he was expressing a resolution condemning the Baldwin Government for its proposals for the reform of the House of Lords, and urging the complete abolition of the House of Lords.

The resolution was carried.

## EARLY ELECTIONS IN BRITAIN ARE NOT PROBABLE

Gardiff, Wales.—In a speech delivered at the Conservative Party Conference here, Premier Baldwin entered into a detailed defence of his Government's policy and welcomed the new vote struck in the recent Trades Union Congress proclaiming faith in the policy of quiet consultation in settling or avoiding labor disputes, but he gave no hope for an early general election.

On the contrary, he spoke calmly of "the next two years of Conservative government."

The Prime Minister said he personally would not hesitate to accept the Opposition's challenge of an appeal to the country, but he thought the country's interests required a period of repose after three general elections in as many years.

Regarding trade prospects, Premier Baldwin said the country's trade had a sheet anchor in the gold standard and there was no cause for pessimism.

"I refuse to hang my harp on a wretched villager," he said.

Concerning the reform of the House of Lords, the Premier promised the Government would consider its policy in the light of the results of the election later in the year.

A motion endorsing votes for women in the country, but he thought the country's interests required a period of repose after three general elections in as many years.

## Reserves

With a reserve you may meet a reverse—without flinching or sacrificing your assets.

A bank account built up by an individual or a business is similar to the cash reserve accumulated from year to year by a banking institution. Adopt this principle. Cash reserves mean not only safety but are the sinews from which success is built.

In any branch of banking service consult a Bank of Toronto branch manager.

## About Town and Country

### FLASH!

Winnipeg, Oct. 12.—R. B. Bennett, is elected leader of conservative party.

### THE RAINFALL

On account of the heavy rain fall of Monday night and Tuesday, amounting to 1.17 inches (snow included) threatening operations have received another set back.

Mr. and Mrs. J. M. Hanbridge of Kerrobert, Sask., spent the week-end with Dr. and Mrs. W. D. McPhail.

A bonn supper and sale of home cooking will be held in Oyen Theatre on Saturday afternoon next, under the auspices of United Church Sunday School. Funds raised for annual Christmas tree.

Mr. Thomas Lees, who went to Calgary last Wednesday, returned to Oyen on Saturday with a Silent Four Star sedan 1928 model.

The Catholic Women's League are holding their sale of work and afternoon tea on Saturday, November 19. Sale to commence at 2.30.

### The Prince of Wales Sends Gift

A box of paeonies was received last week from the Prince of Wales as a gift to the Village of Oyen. Council have not yet officially decided where they will be planted, but it is expected that a special plot will be prepared in the school ground to receive them.

In presenting a selection of these plants to each of the cities, towns and villages of Canada, His Royal Highness is giving a lasting and beautiful memento of his visit to Canada during the diamond jubilee year of confederation.

### Grand Carnival

The Young People's Club purpose holding a carnival of fun in the United Church on Tuesday evening next (October 18). Do not miss it—you'll laugh your head off!

The program committee are taking special pains to make the event a "howling" success. Your presence and good will, will help to start the ball rolling. Never mind about your years, you'll forget them when the fun begins. Have your fortune told; see the comedy play and a dozen other carnival features. Never mind your dress just don your carnival spirit and help the "Young People".

Miss G. Colwell spent the week-end visiting her sister, Miss Grace Colwell of Ladysmith.

Quite a number of United States citizens, who own land in Alberta, are joining the Wheat Pool. Just recently Senator J. W. Reid, of Idaho, signed a contract covering two and a half sections of land in the Maple Creek district.

Writing in The Farm and Ranch Review, C. W. Peterson says: It seems obvious to me that an organization which controls the wheat production of 135,000 farmers, fifty per cent of all Canada's wheat and twenty-five per cent of the world's exportable surplus, and which is organized to render services to its membership at actual cost can effect such economies in handling, and has such tremendous power, that to place it side by side with the comparatively puny efforts of even the greatest of private grain handling concerns is fantastic in the extreme.

The total haulings of the Alberta Pool elevators from the 1926 crop was 3,376,758 bushels for the forty-two houses, or an average of about 126,000 bushels per elevator. The first nine elevators were: Stromer, 275,658 bushels; Ponoka, 223,639 bushels; Coaldale, 222,775 bushels; Kilmom, 226,442 bushels; Huxar, 214,945 bushels; Daysland, 178,169 bushels; Woodhouse, 176,244 bushels; Dalmated, 168,173 bushels; Ensign, 165,476 bushels.

### M. D. Golden Centre

The fifth meeting of council of the M.D. of Golden Centre, No. 272, was held at N.E. 12-30-56th on Saturday, October 1, 1927.

Councillors all present except Councilor Morris.
